Board of Trustees of the
City of Hollywood Police Officers' Retirement System
4205 Hollywood Blvd., Suite 4
Hollywood, Florida 33021

Dear Members of the Board:

This report presents the results of the actuarial valuation of the City of Hollywood Police Officers' Retirement System for the plan year beginning October 1, 2014. The purpose of this report is to provide a summary of the funded status of the plan as of October 1, 2014 and to determine the minimum required contribution amount for the 2015/2016 fiscal year. In addition, this report provides a record of any plan amendments or other plan changes affecting the financial status of the fund. Our calculations were prepared based on member data and financial information provided by the Retirement System.

Summary of Valuation Results

Currently, the Retirement System receives contributions from the City of Hollywood, the State of Florida and from active members. The total required annual contribution for the 2015/2016 fiscal year from all sources is \$15,743,182. The amount of the City contributions varies year to year. The member contributions are equal to 8.00% of payroll. Taking into account expected member contributions of \$1,366,564 and expected State contributions of \$1,269,750; the total required contribution from the City is \$13,106,868. In comparison, the required City contribution for the 2014/2015 fiscal year was \$12,603,280. The City's contribution requirement for the 2015/2016 fiscal year assumes the City will be able to use the State distribution expected in August 2015 to offset its contribution. During fiscal year 2015 a calculation will have to be prepared to determine whether the System still meets the State requirements to use the State distribution.

In determining the City's contribution requirement we have included interest to reflect our understanding that the City makes bi-weekly contributions throughout the fiscal year. In the table below we present the City's contribution requirements whether the City elects to pay the full amount on October 1, 2015 or in bi-weekly installments throughout the 2015/2016 fiscal year.

City contribution payable October 1, 2015	\$12,538,746
Interest for bi-weekly payments during 2015/2016 fiscal year	\$568,122
City contribution payable in bi-weekly installments	\$13,106,868

The plan's unfunded liability was projected to be \$148,118,533 as of October 1, 2014, taking into account City/State contributions from all sources of \$12,479,297 for the year ended September 30, 2014. The actual unfunded liability is \$146,241,676. The decrease of \$1,876,857 in the unfunded liability is primarily due to decremental experience and greater than expected return on actuarial assets. The total increase in City contribution to amortize the unfunded liability is \$287,457. Of this increase, \$383,902 is attributable to the 3.5% increase in the amortization payment under the current method and \$120,667 is attributable to the supplemental distribution, with an offset of \$209,854 for asset returns greater than expected. The reasons for the increase in the City unfunded liability contributions are explained in Table II. A summary of the amortization payments is presented in Table Va.

The valuation is based on a series of actuarial assumptions, including an interest (actuarial asset return) rate of 8% per year. Actuarial gains and losses result when the actual experience of the plan (such as asset return, pay increases, turnover, deaths, etc.) is different from that expected by the actuarial assumptions.

The estimated future cost of the Planned Retirement Benefit is very sensitive to the assumed rates of retirement. The actual cost of the Planned Retirement Benefit will be different from the costs we have estimated and will not be known for many years. The actual cost will depend on many factors, including when members actually terminate from service, how long members will work and how many years of Planned Retirement Benefit members will elect. Generally, assuming members will work longer before retiring will reduce the annual cost of the benefit because the full cost will be spread over a longer period. If in the future, members do not work as long as anticipated by the assumptions the cost to the City of the adopted changes will be higher than estimated. We will monitor the future actual experience under the Planned Retirement Benefit and recommend changes in the retirement rates if necessary.

A summary of the results of the valuation and the contribution requirements is presented in Table I. Disclosure information required by GASB statements 25 and 27 can be found in Tables III and IV. The disclosure information required by Chapter 112, Florida Statutes, is presented in Table V. Tables VII and X provide information about the fund's assets and historical contributions. Table VIIb provides an asset reconciliation between October 1, 2013 and October 1, 2014. Table VI provides a breakdown of the fund assets by investment type and the calculation of the actuarial value of assets. Tables VII, VIIa, VIII provide a historical record of the growth, expenses, revenues, annual returns and contributions of the fund. Tables IX and IXa through IXd provide a variety of useful information concerning the participant population. The assumptions and methods used in the valuation are outlined in Table XI. Provisions of the plan are set forth in Table XII.

This actuarial valuation was prepared and completed by me or under my direct supervision and I acknowledge responsibility for the results. To the best of my knowledge, the results are complete and accurate and, in my opinion, the techniques and assumptions used are reasonable and meet the requirements and intent of Part VII, Chapter 112, Florida Statutes. There is no benefit or expense to be provided by the plan and/or paid from the plan's assets for which liabilities or current costs have not been established or otherwise taken into account in the valuation. All known events or trends which may require a material increase in plan costs or required contribution rates have been taken into account in the valuation.

Future actuarial results may differ significantly from the current results presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreased expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the plan's funded status); and changes in plan provisions or applicable law. Since the potential impact of such factors is outside the scope of a normal annual actuarial valuation, an analysis of the range of results is not presented herein.

Respectfully submitted.

PRESENT VALUE OF ACCRUED BENEFITS (SB 1128)

TABLE IVa

Shown below is the development of the Total Present Value of Accrued Benefit for the Plan. The calculations were performed in accordance with Chapter 2011-216 Laws of Florida (SB 1128) which requires the calculation of the present value of accrued benefits be calculated using the Florida Retirement System’s assumed rate of return of 7.75% in order to promote comparability of actuarial data between local plans.

• Retirement

- For members who are eligible to retire as of September 30, 2011:
 - 100% of members are assumed to retire at the earlier of age 55 or the completion of 22 years of service
- For members who are not eligible to retire as of September 30, 2011:
 - For a member with 10 or more years of creditable service as of September 30, 2011, the assumed annual rates of retirement from active service are as follows:

20	.1030	35	.0182
25	.0730	40	.0099
30	.0415	45	.0048

3. Interest Rates

- Used for Calculating All Liabilities (including GASB 25/27 liabilities)
 - 8.00% per annum
 - 7.75% per annum in calculation of present value of accrued benefits in accordance with Florida Statutes, Chapter 2011-216.

4. Salary Increases

• **Individual Compensation**

Representative values of the assumed annual rates of future salary increase are as follows:

Age	Rate	Age	Rate
20	.1067	35	.0530
25	.0880	40	.0510
30	.0625	45	.0503

* Average assumed annual rate of 5.47%

• **Aggregate Compensation**

The aggregate compensation used to compute the accrued liability contribution rate was assumed to increase at a rate of 3½% per year.

5. Marriage Assumptions

- **Percent Married:** 75% of members are assumed married.
- **Age Difference Between Spouses:** Male spouses are assumed to be three years older than female spouses.

6. Expenses

The normal contribution rate is increased by anticipated non-investment expenses. The anticipated expenses for the 2014/2015 plan year are \$400,000.

7. Assets

The Actuarial Value of Assets is equal to the Market Value of Assets adjusted to reflect a five year phase-in of the difference between the expected return on market value of assets and the actual investment return on market value of assets. The actuarial value of assets cannot be less than 90% of market value nor greater than 110% of the market value.

The following assumptions have been changed during the last few plan years:

1. Effective October 1, 1997:
The post-retirement mortality table was changed to the 1983 Group Annuity Mortality Table.
2. Effective October 1, 1999:
 - a) The actuarial value of assets reflects a "fresh start" at market value, beginning a new five-year phase-in of gains and losses.
 - b) The actuarial cost method was changed from frozen entry age to entry age.
3. Effective October 1, 2006:
 - a) The retirement decrement was changed to the earlier of age 55 or attainment of 22 years of service. This assumption has been changed to better reflect anticipated retirement behavior as a result of the change in plan provisions effective October 1, 2006.
 - b) The percentage of active members assumed married was changed from 95% to 75%. This assumption was changed after a review of the marital status of recent retirees and current active members.
 - c) On October 1, 2006, the Actuarial Value of Assets was changed to be equal to the Market Value of Assets, adjusted to reflect a five-year phase-in of the difference between the expected return on Actuarial Value of Assets and the actual investment return. The new method was applied retroactively so that five years of excess returns are smoothed in 2006. The prior Actuarial Value of Assets was equal to the Market Value of Assets adjusted to reflect a five-year phase-in of the net investment gain or loss.
 - d) It is assumed that members who enter the DROP on or after October 1, 2006 will participate in the DROP for eight years. Therefore, the COLA payment to these members will be deferred eight years.
4. Effective October 1, 2010:
 - a) Age and service based retirement rates were added for members with less than ten years of service as of September 30, 2011.
5. Effective October 1, 2012:
 - a) Age and service based retirement rates were updated to reflect the passage of Ordinance No. O-2013-18.

* **Note: Assumption and Method changes that have first been reflected in this valuation are shown in bold print.**

1. Monthly Accrued Benefit

For members who are eligible to retire as of September 30, 2011:

- 3% of average monthly earnings multiplied by service to 20 years plus 4% multiplied by service over 20 years with a maximum of 80% of average monthly earnings. The full 80% is earned at 22 years of service (resulting in a 12% of earnings increase in benefit at the moment the member attains 22 years of service).

For members who are not eligible to retire as of September 30, 2011:

- Active members who are vested as of September 30, 2011, the sum of the following, not to exceed 80% of average monthly earnings:
 - 3.3% of average monthly earnings multiplied by service earned up to September 30, 2011.
 - 3.0% of average monthly earnings multiplied by service earned on or after October 1, 2011.
- Active members who are not vested as of September 30, 2011, the sum of the following, not to exceed 80% of average monthly earnings:
 - 3.0% of average monthly earnings multiplied by service earned up to September 30, 2011.
 - 3.0% of average monthly earnings multiplied by service earned on or after October 1, 2011.

2. Average Monthly Earnings

For benefits accrued prior to October 1, 2011:

- The average of the highest three years of compensation prior to retirement or termination. Earnings include basic annual wages including regular longevity raises and overtime up to 400 hours per year, but not including amounts for unused sick time or unused vacation time paid at retirement or termination.

For benefits accrued on or after October 1, 2011:

- The average of the highest five consecutive years of compensation out of the last ten years prior to retirement or termination. Earnings shall include basic annual wages, longevity pay, and assignment pay, but not including overtime pay, payments for accrued holiday time, payments for accrued blood time, annual “cash-out” payments for accrued vacation time, payments for accrued compensatory time, and payments for unused sick time or for unused vacation time which is paid upon retirement or termination.

3. Normal Retirement Age and Benefit

- **Eligibility:**
 - For a member with 10 or more years of creditable service as of September 30, 2011:
 - Age 50, or
 - Any age upon attainment of 22 years of service
 - For a member with less than 10 years of creditable service as of September 30, 2011:
 - Age 55 with 10 years of service, or
 - Age 52 with 25 years of service
- **Amount:** Monthly Accrued Benefit
- **Form of Payment:** Life annuity with ten years certain, with a 50% survivor annuity payable to the spouse until death or remarriage

4. Disability Retirement Age and Benefit

- **Condition**

For a service connected disability benefit, the member must become totally and permanently disabled in the line of duty and must have applied for Social Security disability benefits as well as worker's compensation benefits, if applicable;

For a non-service connected disability benefit, the member must become totally and permanently disabled, must have at least five years of service, and must have applied for Social Security disability benefits as well as worker's compensation benefits, if applicable.

- **Amount**

For a service connected disability benefit:

Greater of monthly accrued benefit or 50% of earnings at the time of determination of disability.

For a non-service connected disability benefit:

- For members who become disabled prior to October 1, 2011:
 - 2½% of average monthly earnings multiplied by service, with a minimum benefit of 25% of earnings at the time of determination of disability. The benefit will be offset by any worker's compensation, Social Security, pension, or similar benefit payable to the member or to his dependents. Upon attainment of age 65, the Social Security offset will cease and, upon attainment of age 50, the benefit will be recomputed as a normal retirement benefit with consideration of service granted for the period of time that the member was receiving a disability retirement benefit.

- For members who become disabled on or after to October 1, 2011:
 - 3% of average monthly earnings multiplied by service, with a minimum benefit of 25% of earnings at the time of determination of disability. The benefit will be offset by any worker's compensation, Social Security, pension, or similar benefit payable to the member or to his dependents. Upon attainment of age 65, the Social Security offset will cease and, upon attainment of age 55, the benefit will be recomputed as a normal retirement benefit with consideration of service granted for the period of time that the member was receiving a disability retirement benefit.

- **Form of Payment**

Ten year certain and Life annuity, with a 50% survivor annuity payable to the spouse until death or remarriage. In the case of a member who dies prior to age 50 (or 55) while receiving a non-service connected disability, a 100% survivor annuity is payable to the spouse until death or remarriage.

5. **Withdrawal Retirement Age and Benefit**

- **Age:** Any age with at least ten years of service
- **Amount:** Monthly Accrued Benefit. If participant was has at least ten years of service prior to October 1, 2011, benefit is payable at age 50. Otherwise, benefit accrued as of September 30, 2011 is payable at age 50 and benefit accrued after that date is payable at age 55.
- **Form of Payment:** Life annuity with ten years certain, with a 50% survivor annuity payable to the spouse until death or remarriage if the member dies after payment has begun. A member may elect to receive his contributions in lieu of a withdrawal retirement benefit.

6. **Death Benefits**

- **Service connected death benefit:** 50% of earnings at the date of death payable as a monthly life and ten years certain benefit to the spouse until death or remarriage or to surviving children until the youngest child reaches age 18.
- **Non-service connected death benefit:** 25% of earnings at the date of death payable as a monthly life and ten years certain benefit to the spouse until death or remarriage or to surviving children until the youngest child reaches age 18.

7. **Employee Contributions**

8.00% of compensation.

8. **Refund of Employee Contributions**

If a member's service is terminated prior to his becoming eligible for a withdrawal retirement benefit, then his contributions are returned to him. If contributions are refunded to the member or to his beneficiaries, then interest is credited at the rate of 3% per year.

9. Police Officers' Deferred Retirement Option Plan (DROP)

Prior to October 1, 2011, a participant may enter the DROP upon attainment of normal retirement age. When a member enters the DROP, his Monthly Accrued Benefit is frozen based on his average monthly earnings and service at that time and his Monthly Accrued Benefit is paid into his DROP account. Upon termination of employment, but not more than eight years after entry into the DROP, the balance in the member's DROP account, including interest, is payable to him and he also begins to receive his frozen Monthly Accrued Benefit.

A member hired on or before September 30, 2009 who elects to enter the DROP plan has the option to receive a rate of return on his or her DROP account that is equal to the assumed rate of investment return on fund assets. For members hired on or after October 1, 2009, his or her DROP account shall earn interest at the rate of six percent (6%) per year. In the event the Plan earnings exceed six percent (6%) per year, the earnings in excess of six percent (6%) up to and including twelve percent (12%) per year shall offset the City's cost of maintaining the DROP program. Earnings in excess of twelve percent (12%) per year shall be equally divided between the DROP participant and the City.

A participant who does not enter the DROP prior to October 1, 2011 shall not be eligible to participate in the DROP, unless the member was eligible to retire as of September 30, 2011.

10. Planned Retirement Benefit

In order to participate in the Planned Retirement Benefit a member must submit in writing declaring their intent to participate in the Planned Retirement Benefit at any time on or after reaching the member's normal retirement date, but not later than the later of September 15, 2013 and sixty (60) days after reaching the member's retirement date.

Members who elect to participate in the Planned Retirement Benefit shall not exceed 30 years of service, including service while participating in the Planned Retirement Benefit.

A member who elects to participate in the Planned Retirement Benefit will receive the normal retirement benefit they would have been eligible to receive during the Planned Retirement Period had the member actually retired at a point during the look-back period that begins on the entry date into the Planned Retirement Benefit and ends on the date of termination. If the member chooses a normal retirement benefit based on age and service during the look back period, they will receive a lump sum with interest based on the normal retirement benefit payable during the look-back period.

The maximum look-back period is 8 years from the date of termination for members vested as of September 30, 2011. For non-vested members as of September 30, 2011, the maximum look-back period is 5 years. Non-vested members as of September 30, 2011 who reach his/her normal retirement date upon completion of 25 years of service, but not more than 30 years of service may, upon termination of employment elect to receive benefits under the Planned Retirement Benefit for a period of not more than 5 years. A limited exception to the 30 years of service maximum is available to non-vested members who do not reach their normal retirement date until after 30 years of service. A member under this scenario may participate in the Planned Retirement Benefit for a period of not more than 5 years.

The crediting rate applicable to any lump sum payment shall be calculated in arrears equal to 100% of the first 4% of plan earnings plus 50% of plan earnings in excess of 6%, unless the System is 90% funded. If the System is at least 90% funded, the crediting rate will be based on the 100% of the first 4% of plan earning plus 100% of plan earning in excess of 6%. The member will not share in asset losses in those years where plan returns are negative.

11. Cost-of-Living Adjustment

For benefits accrued prior to October 1, 2011:

- Any retiree's whose benefit commences on or after April 1, 1987 and any beneficiary of such retiree will receive a 2% annual increase in benefit payments commencing three years after the retiree's benefit payments have begun.
- For participants who enter the DROP on or after June 7, 2006, cost-of-living adjustments do not occur while the member participates in the DROP. Adjustments commence the later of the date the participant leaves the DROP and three years after entry into the DROP.

For benefits accrued on or after October 1, 2011, there shall be no annual increase in retirement benefits.

12. Supplemental Pension Check

For retirees, surviving spouses, and other beneficiaries who reached their normal retirement date or entered the DROP on or before September 30, 2011:

- If the actual asset return of the trust exceeds the assumed actuarial return for any fiscal year, the excess return (up to 2%) will be allocated to retirees and beneficiaries based on service at retirement.

For retirees, surviving spouses, and other beneficiaries who reached their normal retirement date or entered the DROP after September 30, 2011, no supplemental pension check will be paid.

The following plan amendments have been adopted within the past few years:

1. Effective January 1, 1991:

- a) The Police Officers' Deferred Retirement Option Plan (DROP) was established;
- b) The benefit formula was changed from 2½% of average monthly earnings multiplied by service up to 30 years to 3% of average monthly earnings multiplied by service up to 27 years; and
- c) The normal retirement age was changed from age 50 to the earlier of age 50 or the attainment of 25 years of service.

2. Effective January 2000:

The excess (up to 2%) of the actual asset return over the assumed actuarial return each September 30 would be allocated the following January to retirees and beneficiaries based on service at retirement.

3. Approved April 2001:

- a) Monies received as a result of Chapter 185, Florida Statutes, will no longer be allocated to this System but to a separate shares plan (effective in the fiscal year beginning October 1, 2001).
- b) The benefit formula was changed from 3% of average monthly earnings multiplied by all service up to 27 years to a 3% rate for service up to 20 years and 4% rate for service over 20 years, with a maximum of 88% of average monthly earnings.
- c) Member contribution rate was changed from 7% to 8% of earnings.
- d) A minimum service-incurred disability benefit equal to the monthly accrued benefit was added. In addition, this benefit will no longer be offset by worker's compensation, Social Security or other similar benefits.

4. Approved February 2002:

Police officers at least age 41 and with between 21 and 25 years of service by September 30, 2002 were permitted to retire and granted service up to 4 years to be credited up to a minimum of 25 years and a maximum of 27 years, provided they paid an amount representing their own estimated contributions for the grant of service.

5. Effective October 1, 2004:

Normal form of benefit was changed to life annuity with ten years certain, 50% joint and survivor, in compliance with Chapter 99-1 Florida Statutes.

6. Effective October 1, 2006:

- a) The maximum pension benefit was reduced from 88% to 80% of final average salary. The maximum is accrued upon attainment of 22 years of service.
- b) Members with 22 years of service are permitted to enter the DROP with a retirement benefit of 80% of final average salary.
- c) Maximum DROP participation is eight years for members who enter the DROP with 22 years of service on or after October 1, 2006. However, the maximum City service (including service while in the DROP) is limited to 30 years.
- d) Overtime hours were capped at 400 hours per year.
- e) Member contributions were increased from 8.0% to 8.5% of pay.
- f) For participants entering the DROP on or after October 1, 2006, Cost-of-living adjustments do not occur while the member participates in the DROP. Adjustments commence the later of the date the participant leaves the DROP and three years after entry into the DROP.
- g) The life and 10-year certain benefit as the normal form of payment is retroactive to October 1, 2000.
- h) State tax premium distributions (185 Monies) after October 1, 2006 will be used as an offset to the City contribution requirements, not to exceed the annual cost of the benefit improvements. Any future State contributions in excess of the annual cost of the benefit improvements will be accumulated and used for future benefit improvements. Also, the accumulated State excess contribution of \$81,376 as of September 30, 2006 will be used to offset the cost of the proposed benefit improvements.

7. Effective October 1, 2009:

- a) Member contributions were increased from 8.5% to 9% of pay.
- b) For members hired on or after October 1, 2009, his or her DROP account shall earn interest at the rate of six percent (6%) per year. In the event the Plan earnings exceed six percent (6%) per year, the earnings in excess of six percent (6%) up to and including twelve percent (12%) per year shall offset the City's cost of maintaining the DROP program. Earnings in excess of twelve percent (12%) per year shall be equally divided between the DROP participant and the City.

8. Effective October 1, 2010:

- a) Member contributions will be increased from 9% to 9.25% of pay.

9. Effective October 1, 2011:

- a) The benefit structure in effect on September 30, 2011 is frozen at midnight. All members will be vested in benefits accrued to date and payable under the terms and conditions of plan provisions then in effect. Except for members eligible to retire on September 30, 2011, effective October 1, 2011, all members are subject to a new benefit structure applicable to future service. None of the benefit changes will apply to members eligible to retire on September 30, 2011.
 - i. Under the benefit structure effective October 1, 2011 Average Final Compensation means the arithmetic average of earnings for the 60 highest consecutive months of the last 120 months of credited service prior to retirement, termination or death.
 - ii. Under the benefit structure effective October 1, 2011 earnings shall be the sum of the following amounts actually paid to a member: Salary, longevity pay and assignment pay. Earnings shall not include overtime pay, payments for accrued holiday time, payments for accrued blood time, annual cash-out payments for accrued vacation time, payments for accrued compensatory time, and payments for unused sick time or for unused vacation time which is paid upon retirement or termination.
 - iii. A member hired prior to October 1, 2011 with less than ten years of credited service as of September 30, 2011 and a member hired on or after October 1, 2011 may retire on the day he or she attains age 55 and completes ten years of creditable service or on the day he or she attains age 52 and completes 25 years of creditable service. A member with 10 or more years of creditable service as of September 30, 2011 shall retain his or her current normal retirement date.
 - iv. The monthly retirement benefit shall equal 2.0% of average monthly earnings times years of service earned on or after October 1, 2011. If the member retires before attaining age 62, an additional benefit equal to 0.5% of average monthly earnings times continuous service on and after October 1, 2011 shall be paid to age 62.
 - v. A member who does not enter the DROP prior to October 1, 2011 shall not be eligible to enter the DROP, unless the member was eligible to retire as of September 30, 2011.
 - vi. Members of the System shall contribute 9.25% of their earnings.

- vii. There shall be no annual increase (COLA) in retirement benefits under the benefit structure effective October 1, 2011.
- viii. The supplemental pension distribution shall be payable only to retirees (and surviving spouses and other beneficiaries thereof) who reach their normal retirement or enter the DROP on or before September 30, 2011.

10. Effective October 1, 2012:

- a) The multiplier increased to 3.3% for service up to September 30, 2011 for vested members on September 30, 2011 and 3% for all members for service after September 30, 2011.
- b) The Planned Retirement Benefit was added retroactive to October 1, 2011.
- c) Employee contributions were reduced from 9.25% to 8% of pay effective the first full pay period on or after May 1, 2013.
